Technical Information

Release	Part #	Build #	Web build #	Installer build #	OCRT build #	Release date
Release 4 Update 4						July 2025
Release 4 Update 3	1299/71	12.0.4.910		917309	16.3.163.9	5/24/2023
Release 4	1299/54	12.0.4.678		476916	16.2.361.11	12/13/2021

Improvements

This release addresses the following security vulnerabilities.

Desktop Application

- The error message to an error condition only displays a generic error message that does not include any sensitive information.
- Dumping process memory also ensures passwords are removed from memory.

Web Application

- Vulnerability to clickjacking has been mitigated.
- JavaScript source map files are not retrievable in production environments.

Web Services Application

- The error message displayed to an error condition in the SOAP API does not display any sensitive information.
- Broken access control flaws in the FlexiCapture API have been resolved.
